Mini Museum Exhibit Project

Lesson 3 - Create & Interpret

Step 1: Design	<p>What do you want your exhibit to look like?</p> <ul style="list-style-type: none">● Remember the mini museum video? You can design your exhibit like that one, or make something completely different! You decide!● Use cardboard, a shoe box, or something else to come up with the layout for your exhibit.
Step 2: Build	<p>How will you arrange your specimens?</p> <ul style="list-style-type: none">● Remember to group them by their shared features such as color, shape, or where you found them!
Step 3: Interpret	<p>What do you want to share about your specimens?</p> <ul style="list-style-type: none">● Write labels for each specimen. Each label should include:<ul style="list-style-type: none">○ What the specimen is○ Where you found it○ One reason you included it in your exhibit
Step 4: Share	<p>Take a picture and share your museum exhibit with your teacher and classmates the next time you meet!</p>
