Summer Camp 2022 COVID Exposure Guidelines - updated 3/30/22

These guidelines are based on the most up to date guidelines for [K-12 Schools and Childcare Facilities](#) set forth by the state of California and the Santa Cruz County Department of Public Health.

1. All campers, participating camp households, and Museum staff monitor for symptoms for 2 weeks leading up to camp and throughout the duration of the week.
2. If symptoms occur in the 2 weeks leading up to or during the week of camp, staff members and campers with symptoms of COVID-19 infection are not to attend in-person until they have met CDPH criteria to return to camp for those with symptoms:
 - a. At least 24 hours have passed since resolution of fever without the use of fever-reducing medications; AND
 - b. Other symptoms are improving; AND
 - c. They have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.
3. Masking is strongly recommended by campers and will be required of staff while indoors or when working in close proximity to students.
4. Parents and guardians will be notified of potential exposures to someone displaying symptoms of COVID-19 at camp, exercising respectful confidentiality for all campers and their families
